

VULCASEAL[®]

DC140

FAST AND HIGH PERFORMANCE CLEANER WHICH REMOVES MOSS, FUNGI AND ALL ORGANIC SOILING FROM WALLS, FLOORS AND ROOFS.

PRODUCT DESCRIPTION

Vulcaseal DC140 is a high performance cleaner which completely removes organic and microbiological soiling (greasy stains, pollution, moss, fungi etc) from all porous building materials. The material can simply be rinsed with water without using a pressure washer.

Vulcaseal DC140 contains no potassium hydroxide, sodium hydroxide, hydrochloric or phosphoric acid, quaternary ammonium, heavy metals or solvents. It does not alter the colour of the substrate.

Vulcaseal DC140 is recommended for the treatment of walls, roofs, balconies, fountains, ponds, monuments, fences, decks, garden stones and paving, boat hulls, awnings and tennis courts. It is also very efficient in cleaning lime render surfaces against pollution, moss and fungi stains.

Vulcaseal DC140 also provides extensive protection against moss and fungi. For lasting results, we recommend the use of the appropriate sealer from the Vulcaseal range.

CHEMICAL COMPOSITION

Surfactants and foaming agents: comply with European Directives EEC 82/242 and 82/243.

CHARACTERISTICS

Does not damage the treated material surface, unlike other acidic or alkaline cleaning products

Fast acting and lasting effects

Non hazardous

Easy to use

High penetrating power

Waterborne product

Contains no acid or nonyl phenol

<p>Vulcaseal DC140 is formulated with surfactants and foaming agents: comply with European Directives EEC 82/242, 82/243.</p>	

PACKAGING

1 and 5 litre containers.

TECHNICAL DATA

Physical State at 20 °C	Liquid
Appearance	Green
Odour	Characteristic
pH	≤ 10
Boiling point	100 °C
VOC	0 g/l
Density	1.2 Kg/L
Solubility in water [vol/vol]	Fully soluble
Flash Point	N/A

COVERAGE PER LITRE

The figures indicated are approximate and should be used only as a general guideline: **1 Litre = 3 to 7m².**

STORAGE

24 months from the date of manufacture in original unopened container in a clean, dry area and ideally at 20-25°C. Keep away from extreme cold, do not store in conditions below 5°C.

CLEANING EQUIPMENT

Clean tools and equipment immediately after use with water.

APPLICATION

Shake the container well before use. Use directly from the container, do not dilute or mix with another product. Always carry out a test first to ensure the finished result is acceptable. Apply in dry weather, on dry or slightly damp material, using a low-pressure sprayer (ie garden sprayer) until surface is saturated. If there is a lot of fungi or moss, brush before applying the product. Leave for 10 minutes. Allow for more time in cold weather (less than 10°C). Rinse with water or high pressure washer. For best results, (outside use) allow to dry for 8 hours before the next rain fall. Important: The contents of this document are the result of our experience with this product. We cannot be in any way held liable for its use in individual cases. **For more information, please see the Material Safety Data Sheet.**

RECOMMENDATIONS

Shake before use to obtain the best look and results with cleaning. Take care to not spray plants or animal fodder or feed. Do not apply during rain, frost, or when surface and air temp is <5°C and >30°C. Do not dilute or mix with another product. Disposal: Rinse container with water and place in a plastic recycling bin. Do not throw away because a poorly cleaned container can harm the environment. **HEALTH AND SAFETY**
Hand Protection Wear domestic gloves.
Skin Protection Wear protective clothing over exposed areas of skin.
Respiratory Protection Under normal conditions of use where there is adequate ventilation, no special respiratory protection equipment is needed.
Eye Protection Wear safety goggles.
In case of ingestion Do not provoke vomiting. Contact a doctor or a specialist.
Keep out of the reach of children.
